SKILLS

- **Technologies:** Java, Python, HTML, CSS, JavaScript, Tailwind CSS, Bootstrap

- **Soft-Skills:** Problem-solving, Effective communication, Leadership Skills, Time Management, Analytical Skills, Presentation skills, Adaptability.

EDUCATION

- **LDRP Institute of Technology and Research University**
  Gandhinagar, India
  Information Technology
  Anticipated Graduation: May 2025   *CGPA – 8.02*

- 12TH (CBSE)   *73.3%*

- 10th (CBSE)   *GRADE 'B'*

EXPERIENCE

- **Internship | Ashavi Agrotech**

  (Jan 2024 – Feb 2024)

  Designed and developed a website for Ashavi Agrotech, a company specializing in agricultural technology solutions. Utilized HTML, CSS, and JavaScript to build interactive and engaging web pages.

ACADEMIC PROJECTS

- **Identifying Patterns and Trends in Campus Placement Data using Machine Learning**
  I worked on the frontend development of a project aimed at identifying patterns and trends in campus placement data using machine learning. This project involved creating an intuitive interface to visualize insights from student data, helping to improve placement strategies.

- **QR code-based citizen feedback system for Gujrat Police**
  In this project, I developed the frontend for a QR code-based feedback system for the Gujarat Police. I created a mobile web interface for citizens to provide feedback easily and a web-based interface for officers to analyze the quality of service at police stations.

- **Building a real-time comparison tool for e-commerce products**
  I focused on frontend development for a real-time comparison tool for e-commerce products. The project involved building a responsive web interface that allows users to compare products across different e-commerce websites, enhancing the shopping experience.

- **Personal Portfolio Website**

Developed a fully functional personal portfolio website that showcases my skills, projects, and experiences. Featuring a responsive design and smooth navigation, this website highlights my expertise in web development, UI/UX design, and JavaScript.

❖ **Spotify Clone**

Developed a fully functional personal portfolio website that showcases my skills, projects, and experiences. Featuring a responsive design and smooth navigation, this website highlights my expertise in web development, UI/UX design, and JavaScript.

❖ **To Do App**

Developed To Do app using pure JavaScript, featuring functionalities to add, delete, list, and quit tasks.

❖ **Guessing Game**

Developed Guessing Game using JavaScript, where users input a range and the system selects a random number within that range. The user then has to guess the number.

POSITION OF RESPONSIBILITY

❖ **XENESIS | Annual Event, LDRP College**   *(23-02-2023)*
Volunteered the Annual Event as a part of the Core Volunteer Team.
